### Subject Index

**Canadian Journal of Plant Science, Volume 92, 2012**

- **Abscisic acid**
  - Transcriptome analysis of chilling-tolerant rice, 447

- **ABUTH**
  - Glyphosate with insecticide or fungicide, 297

- **Acetolactate synthase**
  - Spiny annual sow-thistle resistant to ALS inhibitors, 303

- **Acidic pH hydroponics**
  - Proteomic analysis of Al-treated Arabidopsis, 1267

- **Acidification**
  - Effect of acidification on carrot juice, 1113

- **Adaptation**
  - Selecting mungbean using GGE biplot, 951
  - Weed invasion and climate change, 1013

- **Adventitious presence**
  - First report of outcrossing rates in Camelina, 681

- **Adzuki bean**
  - Dry bean response to halosulfuron, 723

- **Aegilops triuncialis**
  - Inheritance of stem rust resistance, 1037

- **Alfalfa**
  - Bridgeview alfalfa, 203
  - Harvest traffic and alfalfa yield, 1253

- **Amino acid**
  - Glyphosate toxicity to citrus plants, 119

- **Ammonium nitrogen fertilizer**
  - Pile management on sugar beet storage, 129

- **Anthocyanins**
  - Phytochemical and antioxidant activity of potato, 485

- **Anthracnose**
  - Control of dry bean anthracnose, 109

- **Anti-cancer**
  - Northern Ontario medicinal plants, 815

- **Anti-microbial**
  - Northern Ontario medicinal plants, 815

- **Antioxidant**
  - Anti-atherosclerotic effects of fruit, 407
  - Antioxidant capacity of wheat, 19
  - Berry crop diversity analysis, 1121
  - Haskap: A new high-antioxidant berry, 1311
  - Rutin concentration in two asparagus cultivars, 901

- **Antiserum preparation**
  - Expression of TFMV CP gene and antiserum preparation, 495

- **Aphidiinae**
  - Aphid parasitoids in biological control, 1

- **Aphid**
  - Aphid parasitoids in biological control, 1

- **APSIM-wheat**
  - Evaluation of the APSIM-Wheat model, 937

- **Architecture, plant**
  - Forced and protected strawberry production in Europe, 1021

- **Ascochyta pinodes**
  - Partial resistance to mycosphaerella blight, 289

- **Aspergillus nodosum**
  - Growth of pine roots, 1207

- **Asparagus**
  - Asparagus seedling freezing tolerance, 271
  - Rutin concentration in two asparagus cultivars, 901

- **Assimilation**
  - N assimilation in crop plants, 399

- **Atherosclerosis**
  - Anti-atherosclerotic effects of fruit, 407
  - Fruit and vegetable phytochemicals, 373

- **AtpA gene**
  - Cloning and characterization of Cox II and atpA from ramie, 1295

- **Avena sativa** L. (see Oat)
  - Avena fatua L. (see Oat, wild)

- **Backcross introgression lines**
  - Low-temperature tolerance of soybean, 1381

- **Barley**
  - Plant establishment: malting barley production in western Canada, 321
  - Productivity and quality of malting barley, 577
  - Seeding date and rate: malting barley production in western Canada, 321
  - Strategies to increase NUE of spring barley, 617

- **Bean**
  - AAC Tundra great northern dry bean, 1403
  - Control of dry bean anthracnose, 109
  - Dry bean response to halosulfuron, 723
  - OAC Inferno common bean, 589
  - Rexeter common bean, 351

- **Bee**
  - Honey bees and wild blueberries, 1305

- **Berry crop**
  - Berry crop diversity analysis, 1121
  - Haskap: A new high-antioxidant berry, 1311
