Thanks to all the donors who supplied the Seed Depot in the past year. Your generosity makes this service possible. We are always looking for cleaned, identified cactus and succulent seed. Contact the Director for more information.

**Price:** seed packets are $1.00 apiece; non-CSSA members pay $2.00 apiece. If you are ordering by mail, please list selections by number, as packets will be marked by number. For orders placed via the CSSA website, the numbers will appear on your invoice. Generally 20-25 seeds are included per packet, unless the list specifies otherwise; one packet per species per order is the general rule, but some varieties are available in larger quantities. Please inquire first. Please list some substitutes, or substitutions will be made at the Director’s discretion.

**Postage:** U.S., $5.00 per order; Canada and other countries, $15.00. Payment must be in U.S. currency — cash or money order — or check drawn on a U.S. bank (payable to CSSA Seed Depot). California customers should add 7.5% sales tax on the seeds + postage total.

Orders should be sent to:
CSSA Seed Depot,
3015 Timmy Ave,
Clovis
CA 93612-4849

You may also order by credit card from the secure CSSA site: http://www.cssainc.org. This list supersedes all previous lists.

**Please note:**
Updates to this list will not appear in print, but instead can be found on the cssa website at http://cssa.myshopify.com/collections/seed-depot

Seed from cultivars will not produce plants which are true-to-type.

1. Acanthocalycium glaucum
