The article Monchot et al. (2013), used data that had not been made available for this paper and the owners of the data did not know about the use. The data in question underpinned Wiig et al. (2007) but were not enumerated in that paper. At his request, these data were shared with Monchot on the condition that if the data were used in a publication, all data owners (Gjertz, Lydersen, Stewart & Wiig) would be included as co-authors.
