Recognition of Reviewers and Associate Editors

Reviewing manuscripts is an essential part of scientific research evaluation. Each volunteered manuscript accepted for publication is reviewed by two peers, an associate editor, and the editor. The objective of review selection is to obtain assistance from scientists who may know the manuscript topic better than the associate editor or editor.

The reviewers' primary responsibilities are to evaluate the scientific quality and the accuracy of data interpretation and to help the author improve the manuscript. Below is a list of WSSA members and other individuals who have reviewed one or more manuscripts for *Invasive Plant Science and Management* from October 21, 2011 through October 20, 2012, and whose reviews have been returned to me. Others assigned during this same period are still pending and will be reported next year. Thanks to these colleagues for helping to maintain and enhance the weed science profession. Please forgive any errors or omissions.

Special thanks also to Associate Editors Edith Allen, Lars W. Anderson, Jacob Barney, Matthew L. Brooks, John Cardina, Christopher P. Dionigi, Steven Enloe, Jodie S. Holt, Ruth A. Hufbauer, Darren Kriticos, Kelly G. Lyons, John D. Madsen, Scott J. Nissen, Timothy S. Prather, John A. Randall, Matt Rinella, and Philip H. Westra, and to the WSSA headquarters.
