BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to

Arctic, Antarctic, and Alpine Research

Vol. 47, No. 1 February 2015

Contents

Glacier-derived August runoff in northwest Montana
Adam M. Clark, Joel T. Harper, and Daniel B. Fagre 1–16

Morphological and ultrastructural changes of organelles in leaf mesophyll cells of the Arctic and Antarctic plants of Poaceae family under cold influence
Irena Giełwanowska, Marta Pastorczyk, Wioleta Kellmann-Sopyła, Dorota Górniak, and Ryszard J. Górecki 17–25

Effects of increased soil nutrients on seed rain: a role for seed dispersal in the greening of the Arctic?
Laura Gough, Heather Bass, and Jennie R. McLaren 27–34

Rapid nutrient release from permafrost thaw in arctic aquatic ecosystems
Francisco R. Reyes and Vanessa L. Lougheed 35–48

Size and characteristics of the DOC pool in near-surface subarctic mire permafrost as a potential source for nearby freshwaters
M. S. Thompson, R. Giesler, J. Karlsson, and J. Klaminder 49–58

Characterizing above- and belowground carbon partitioning in forest trees along an altitudinal gradient using area-based indicators
Zhun Mao, Yan Wang, Christophe Jourdan, Lauric Cécillon, Jérôme Nespoulous, Hervé Rey, Laurent Saint-André, and Alexia Stokes 59–69

Storage, landscape distribution, and burial history of soil organic matter in contrasting areas of continuous permafrost
J. Palmtag, G. Hugelius, N. Lashchinskiy, M. P. Tamstorf. A. Richter, B. Elberling, and P. Kuhry 71–88

Rock glaciers as water stores in the Bolivian Andes: an assessment of their hydrological importance
S. Rangecroft, S. Harrison, and K. Anderson 89–98

Vegetation recovery patterns following permafrost disturbance in a Low Arctic setting: case study of Herschel Island, Yukon, Canada
Heather A. Cray and Wayne H. Pollard 99–113

Biomass, productivity, and nutrient allocation in subalpine shrublands and meadows of the Emerald Lake Basin, Sequoia National Park, California
Philip W. Rundel 115–123

Responses of alpine grassland to climate warming and permafrost thawing in two basins with different precipitation regimes on the Qinghai-Tibetan Plateau
Zhaoye Zhou, Shuhua Yi, Jianjun Chen, Baisheng Ye, Yu Sheng, Genxu Wang, and Yongjian Ding 125–131

Ecotonal dynamics of the altitudinal forest limit are affected by terrain and vegetation structure variables: an example from the Sudetes Mountains in Central Europe
Václav Treml and Tomáš Chuman 133–146

Decadal-scale variations in glacier area changes across the Southern Patagonian Icefield since the 1970s
A. White and L. Copland 147–167

Microhabitat utilization of the Tatra marmot (*Marmota marmota latirostris*) in the Western Carpathian Mountains, Europe
Zuzana Ballová and Jozef Šibík 169–183

Book Reviews

Vanishing Ice: Alpine and Polar Landscapes in Art, 1775–2012, by Barbara C. Matilsky 185

Essentials of the Earth's Climate System, by Roger G. Barry and Eileen A. Hall-McKim 185–187

Polar and Arctic Meetings Calendar 189–190

Arctic, Antarctic, and Alpine Research

Vol. 47, No. 1, pp. 1–190, February 2015

Arctic, Antarctic, and Alpine Research

An Interdisciplinary Journal
