BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

Corrigendum

Regulation of Host Workers' Oviposition by the Social Parasite Ant *Polyergus samurai*

Yousuke Tsuneoka

This paper was published in *Zoological Science*, 31(7): 407–413 (2014)

The original Acknowledgments section was missing. The correct Acknowledgments are below.

ACKNOWLEDGMENTS

I am most grateful to O. Kitade for his valuable comments on this manuscript. I am very grateful to Ibaraki University, Showa University, and Messrs. Kusama and Ishii for their permission for field collection. I would like to thank Y. Hagiwara, H. Abe, Y. Tanaka, S. Sato, S. Nohara, T. Shigeta, M. Hoshi and A. Wakui for their assistance of in collecting ants. This research was supported by the Sasagawa Scientific Research Grant from the Japan Science Society (No. 20-518).
