Daphne Fautin (1946–2021) – Cnidarian specialist and Commissioner

Daphne Fautin died on March 12, 2021. Her career as a marine biologist, as well as her many activities and personal interests, resulted in a large and diverse circle of colleagues and acquaintances. Since her death, remarks and tributes have been pouring in. However, there were also pre-mortem communications to her. She had an aggressive and incurable form of leukemia, and had been given six months to live. She made arrangements to take advantage of Oregon's Death with Dignity Act, and shared the news of her decision widely. It provided an opportunity for many people to express their appreciation and affection while she was able to receive it.

Result of Declaration 46 vote

At the end of the voting period on 29 January 2022, valid votes were received from 18 of the 22 Commissioners eligible to cast ballot papers under Bylaw 30(c). Motion 1: ‘the amendment to the Code resulting from the proposed Declaration 46 (Appendix) “*is not a major change but merely clarifies a provision of the Code*” (Article 78.3)’, was agreed upon by greater than two-thirds of the vote, whereas Motion 2: ‘The text of the proposed Declaration 46 (Appendix) may be issued in its current form’, failed to reach a two-thirds majority.

The proposed amendment (Declaration 46; see BZN 77: 5–11) is therefore deemed not to be “a major change but merely clarifies a provision of the Code” (Article 78.3 of the Code, but the text of the proposed Declaration 46 may not be issued in its current form, and a revised proposal will be voted on.
