TERMITIDAE Latreille, 1802

Termitina Latreille, 1802: 293 [first proposed as Termitines; *termitina*].

TYPE GENUS: *Termes* Linnaeus, 1758.

- Westwood, 1840: 11 • Termitidae; references; = Isoptera.
- Froggatt, 1897a: 518 • Termitinae; characters.
- Silvestri, 1903: 37 • Termitinae; characters; genera included.
- Desneux, 1904b: 9, 25 • Termitinae; of Termitidae; reference list; characters; key.
- Desneux, 1904c: 285, 286 • Termitinae; of Termitidae; characters; Termitini; of Termitinae; characters.
- Handlirsch, 1907: 699 • Termitinae [part]; listed; genera and species included.
- Enderlein, 1909: 171, 172 • Termitidae; included as a family in suborder Cryptoclidoptera of Isoptera; characters.
- Escherich, 1909: 173, 174, 179 • Termitinae [part]; of Termitidae; characters; Termitini [part]; of Termitinae; characters; genera included.
- Holmgren, 1910b: 285 • Termitinae; of Metatermitidae; listed; genera included.
- Banks, 1920: 5, 10 • Termitidae; key.
- Handlirsch, 1921: 224 • Termitidae [part]; fossil history [*Leucotermes* included].
- Handlirsch, 1923: 505, 506 • Termitidae; key; distribution; Termitini [part]; of Termitinae; key; synonymy.
- Light, 1924: 52–53 • Termitidae; key.
- Emerson, 1925: 357 • Termitidae; discussion.
- Sjöstedt, 1926d: 7, 8 • Termitidae; key.
- Pongrácz, 1926: 29 • Termitinae; geological distribution.
- Tillyard, 1926b: 104, 106 • Termitidae; characters; key.
- Emerson, 1928b: 431 • Termitidae; discussion.
- Handlirsch, 1930: 856, 857 • Termitidae; key; distribution; Termitinae; key; characters; distribution; Termitini [part]; of Termitinae; key; characters; genera included.
- Karny, 1930: 432 • Termitidae; listed; replacement for Holmgren's Metatermitidae.
- Light, 1930f: 15–16 • Termitidae; listed; genera included.
- Brues and Melander, 1932: 95 • Termitidae; key.
- Hill, 1932b: 10 • Termitidae; key.
- Kemner, 1934b: 69 • Termitidae; synonymy.
- Light, 1934c: 121 • Termitidae; characters.
- Wu, 1935: 219 • Termitidae; catalog; synonymy.
- Hare, 1937: 460, 461, 463, 474, 476, 478; pl. 1 • Termitidae; phylogeny based on soldier mandibles; Metatermitidae of Holmgren compared.
- Emerson, 1942: 11 • Termitidae; listed.
- Hill, 1942: 6, 8–10 • Termitidae; defining characters; list of Australian genera and species.
- Snyder, 1949a: 90 • Termitidae; catalog; reference list; synonymy [Westwood incorrectly cited as the author of the family].
- Cachan, 1949: 225–226 • Termitidae; characters; remarks.
- Grassé, 1949: 535 • Termitidae; characters; subfamilies included.
- Grassé, 1952b: 54–55 • Termitidae; caste development.
- Lal and Menon, 1953: 2, 34 • Termitidae; catalog; reference list; key.
- Emerson, 1955: 506, 517 • Termitidae; number of genera and species; distribution.
- Ahmad, 1955b: 203 • Termitidae; key.
- Noirot, 1955b: 395–595 • Termitidae; caste development; polymorphism.
- Weidner, 1955f: 39, 58, 59, 70 • Termitidae; key; characters; subfamilies included.
- Noirot, 1956: 145–158 • Termitidae; supplementary reproductives; replacement.
- Imms, 1957: 392 • Termitidae; characters; genera included [*Serritermes* included].

- Ahmad, 1958: 35 • Termitidae; key.
- Calaby and Gay, 1959: 212 • Termitidae; zoogeography; number of species.
- Harris, 1961a: 53, 65 • Termitidae; key; characters.
- Webb, 1961: 8 • Termitidae; key.
- Tsai and Chen, 1964b: 72 • Termitidae; characters [Westwood incorrectly cited as author].
- Bouillon and Mathot, 1965: 15, 16, 20 • Termitidae; key; characters.
- Noirot and Noirot-Timotheé, 1965c: 269, fig. 2C • Termitidae; sternal gland location.
- Weesner, 1965: 33, 38 • Termitidae; key; characters; genera included.
- Bouillon and Mathot, 1966: 14 • Termitidae; number of genera and species in Ethiopian Region.
- Araujo, 1970d: 531, 533 • Termitidae; number of genera and species; Neotropical Region.
- Krishna, 1970: 129, 130, 140–150, figs. 1, 5–8 • Termitidae; key; phylogeny and distribution of included subfamilies and genera.
- Paulian, 1970: 286 • Termitidae; number of genera and species in Madagascar.
- Weidner, 1970c: 11, 22–23 • Termitidae; key; discussion.
- Araujo, 1972a: 253, 255 • Termitidae; number of genera and species; distribution in Nearctic and Neotropical Regions.
- Chhotani and Bose, 1973: 233, 235–236 • Termitidae; distribution of Indian taxa.
- Weidner, 1974: 17–18 • Termitidae; remarks; subfamilies included; Westwood incorrectly cited as author.
- Akhtar, 1974b: 91, 99, 100 • Termitidae; biogeography. Pakistan.
- Akhtar, 1975: 185 • Termitidae; biogeography.
- Morimoto, 1975b: 8, 16 • Termitidae; key.
- Roonwal, 1975c: 37 • Termitidae; phylogeny.
- Noirot and Noirot-Timotheé, 1977: 695, 696, 706, 708 • Termitidae; rectum; histology.
- Roonwal and Chhotani, 1977: 41 • Termitidae; key.
- Ruelle, 1978a: 753 • Termitidae; biogeography. South Africa.
- Prestwich, 1979b: 465–474 • Termitidae; chemical defense; frontal gland; biochemistry.
- Ampion and Quennedey, 1981: 249, 254, 256, 257, 259, fig. 1 • Termitidae; sternal and tergal gland; phylogeny.
- Bose and Das, 1982: 199 • Termitidae; key.
- Brown, 1982: 351 • Termitidae; characters.
- Chhotani and Bose, 1983: 125–126 • Termitidae; distribution of Arabian taxa.
- Maiti, 1983: 17, 23 • Termitidae; key.
- Roonwal, 1983b: 366, 367, 380 • Termitidae; wing microsculpturing.
- Bose, 1984: 14, 90–99 • Termitidae; key; remarks; distribution.
- Collins, 1984: 76 • Termitidae; key.
- Noirot, 1985c: 75–86 • Termitidae; caste development.
- Noirot, 1985d: 177–186 • Termitidae; caste differentiation; replacement reproductives.
- Chhotani, 1986: 22–26 • Termitidae; affinities and zoogeography of Oriental taxa.
- Abe, 1987: 126, 130, 141 • Termitidae; phylogeny; nest type; number of species.
- Bose and Das, 1987: 108 • Termitidae; key.
- Weesner, 1987: 135, 137 • Termitidae; key based on worker caste; characters; biology and ecology.
- Huang et al., 1989: 111 • Termitidae; key; discussion.
- Roonwal and Chhotani, 1989: 118–122 • Termitidae [part]; diagnostic characters listed; generic and species composition discussed; key.
- Thakur, 1989b: 355 • Termitidae; number of genera and species. India.
- Martynova, 1991: 142 • Termitidae; characters; paleogeography.
- Watson and Gay, 1991: 342, 345 • Termitidae; key; characters; subfamilies included; biology.
- Carpenter, 1992: 142 • Termitidae; characters; genera included.
- Fan, 1992: 506, 507, 513 • Termitidae; key; characters.
- Nickle and Collins, 1992: 212, 225 • Termitidae; key; characters.
- Maiti and Saha, 1993: 514 • Termitidae; key.

- Rebello and Martius, 1994: 127–145 • Termitidae; flight; Amazon forest.
- Bignell and Eggleton, 1995: 57–69 • Termitidae; gut pH; phylogeny of subfamilies.
- Noirot, 1995a: 321–323 • Termitidae; sternal gland; phylogeny.
- Kambhampati et al., 1996: 229–238 • Termitidae; phylogeny based on DNA of m16S rRNA sequences.
- Abensperg-Traun and Steven, 1997: 473 • Termitidae; species density in Australia.
- Chhotani, 1997: 6–9 • Termitidae; synonymy; characters; distribution and composition; key to subfamilies.
- Poole and Gentili, 1997: 493, 494 • Termitidae; listed.
- Miura et al., 1998b: 515–523 • Termitidae; molecular phylogeny; mDNA, COII gene; relationships among four subfamilies.
- Bose, 1999: 23–24 • Termitidae; key.
- Huang and Li, 1999: 269 • Termitidae; key.
- Jamieson et al., 1999: 135, 136 • Termitidae; phylogeny based on sperm structure.
- Martius et al., 1999: 357–365 • Termitidae; ecology. Brazil.
- Medeiros et al., 1999: 76–87 • Termitidae; swarming; rainforest. Brazil.
- Ferreira da Cunha et al., 2000: 447–456 • Termitidae; ecology; behavior; phylogeny.
- Huang et al., 2000: 159, 160 • Termitidae; key.
- Kambhampati and Eggleton, 2000: 21 • Termitidae; key.
- Roisin, 2000: 98–101 • Termitidae; caste development.
- Bitsch and Noirot, 2002: 201–210 • Termitidae; phylogeny of subfamilies and genera based on gut characters; cladistic analysis.
- Uys, 2002: 41 • Termitidae; remarks.
- Williams, 2002: 42 • Termitidae; rainforest; distribution. Australia.
- Engel and Krishna, 2004a: 5, table 1 • Termitidae; classification; listed.
- Ohkuma et al., 2004: 701–710 • Termitidae; phylogeny; COII sequences; Asian taxa.
- Rathore and Bhattacharyya, 2004: 7, 8 • Termitidae; key.
- Rathore and Tak, 2004a: 43 • Termitidae; key.
- Crosland et al., 2005: 63–68 • Termitidae; arolium morphology.
- Grimaldi and Engel, 2005: 247–249, 251 • Termitidae; fossil history; phylogeny.
- Legendre et al., 2008: 615–627 • Termitidae; rDNA COII sequences; phylogeny; worker caste.
- Koshikawa et al., 2008: 859–867 • Isoptera; haploid genome size; synapomorphy; *Cryptocercus*; phylogeny.
- Quennedey et al., 2008: 168–185 • Termitidae; sternal gland; histology; phylogeny.
- Engel et al., 2009: 10, fig. 2 • Termitidae; phylogeny; classification; subfamilies included.
- Davis et al., 2009: 1750–1761 • Termitidae; phylogeny; supertree; species richness; diversification.
- Ware et al., 2010b: 204–219, figs. 1–5 • Termitidae; fossil; phylogeny; divergence time estimates.

Metatermitidae Holmgren, 1910b: 286 [Holmgren included the following subfamily:

Termitinae. The family name is unavailable, as it is not based on any available genus].

- Emerson, 1971: 297 • Metatermitidae = Termitidae.

Isopteridae Haupt, 1956: 23, 28 [**nomen nudum**; does not meet the provisions of ICZN, 1999, arts. 11.7.1, 13.2 and 29; two new genera included: *Eotermes* (name preoccupied by *Eotermes* Statz, 1939) and *Architermes*].

▲ 8 subfamilies; 238 genera: 2072 living species, 34 fossil species; 1 fossil genus: 1 fossil species.

🌐🌐🌐 DISTRIBUTION: Australian Region; Ethiopian Region; Nearctic Region; Neotropical Region; Oriental Region; Palearctic Region; Papuan Region.

SPHAEROTERMITINAE Engel and Krishna, 2004

Sphaerotermitinae Engel and Krishna, 2004a: 6–7.

TYPE GENUS: *Sphaerotermes* Holmgren, 1912a.

- Krishna, 1970: 131, 145–146, figs. 1, 7 • Macrotermitinae [part]; discussion; phylogeny of subfamily and genera; distribution.
- Inward et al., 2007b: 953–967 • Sphaerotermitinae; generic level phylogeny; morphological and molecular data; evolution of life histories.
- Engel et al., 2009: 10 • Sphaerotermitinae; classification.

▲ 1 genus: 1 species.

🌐 DISTRIBUTION: Ethiopian Region.

Sphaerotermes Holmgren, 1912

Sphaerotermes Holmgren, 1912a: 33.

TYPE SPECIES: *Eutermes sphaerotherax* Sjöstedt, 1911c by monotypy.

- Sjöstedt, 1926d: 149 • *Sphaerotermes*; synonymy.
- Emerson, 1928b: 406, 418, 450 • *Sphaerotermes*; key; discussion; distribution.

Sphaerotermes sphaerotherax (Sjöstedt, 1911)

Eutermes sphaerotherax Sjöstedt, 1911c: 159–161 (soldier, worker).

TYPE DATA: Syntypes: NHRM soldiers, workers, AMNH soldiers, workers, NCIP soldiers [incorrectly cited as paratypes by Ruelle, 1975b].

TYPE LOCALITY: Congo-Zaire (Kongo): Mukimbungu [05°07'S, 14°04'E].

- Holmgren, 1912a: 33, fig. 11, pl. 1: fig. 10 • *Sphaerotermes sphaerotherax*; listed; soldier figured; new combination. Congo-Zaire.
- Silvestri, 1914a: 17 • *Sphaerotermes sphaerotherax*; locality; characters. Cameroon.

- Sjöstedt, 1914c: 90 • *Termes (Sphaeroterme) sphaerotherax*; locality; new combination. Congo-Zaire.
- Hegh, 1922: 657 • *Sphaeroterme sphaerotherax*; reference list; distribution.
- Sjöstedt, 1926d: 149–150, fig. 29, pl. 6: figs. L1–2 • *Sphaeroterme sphaerotherax*; soldier figured; reference list; key; biology; locality. Cameroon; Congo-Zaire.
- Sjöstedt, 1926b: 149 • *Sphaeroterme sphaerotherax*; locality. Congo-Zaire.
- Emerson, 1928b: 450, fig. 15 • *Sphaeroterme sphaerotherax*; imago, soldier described and figured; biology. Cameroon; Congo-Zaire.
- Hare, 1937: 469, pl. 9: fig. 23 • *Sphaeroterme sphaerotherax*; imago/worker, soldier mandibles measurements and figures.
- Snyder, 1949a: 208 • *Sphaeroterme sphaerotherax*; catalog; reference list. Cameroon; Congo-Zaire.
- Grassé and Noirot, 1949: 149–166, figs. 1–4, pls. 1–3 • *Sphaeroterme sphaerotherax*; imago labrum, mandibles figured; nest described and figured; biology; fungi.
- Ahmad, 1950: 82, fig. 8 • *Sphaeroterme sphaerotherax*; imago mandibles figured.
- Noirot, 1955b: 542–545, fig. 70 • *Sphaeroterme sphaerotherax*; caste development; polymorphism.
- Weidner, 1956b: 79, fig. 18 • *Sphaeroterme sphaerotherax*; synonymy; soldier mandibles, labrum figured; locality. Angola.
- Grassé and Noirot, 1958b: 14 • *Sphaeroterme sphaerotherax*; nest ventilation.
- Grassé and Noirot, 1958a: 519 • *Sphaeroterme sphaerotherax*; nest construction and architecture.
- Grassé and Noirot, 1958c: 113 • *Sphaeroterme sphaerotherax*; comments; without fungi.
- Noirot, 1958a: 558 • *Sphaeroterme sphaerotherax*; development; gonoducts.
- Grassé and Noirot, 1959: 369, 372 • *Sphaeroterme sphaerotherax*; comments; fungus combs.
- Webb, 1961: 42 • *Sphaeroterme sphaerotherax*; soldier figured.
- Weidner, 1961: 26, 29, 73, figs. 9, 10 • *Sphaeroterme sphaerotherax*; synonymy; nest, royal chamber described and figured; distribution. Angola.
- Roonwal, 1962a: 144 • *Sphaeroterme sphaerotherax*; comments on fungus combs; without fungi.
- Mathur and Thapa, 1962a: 72 • *Sphaeroterme sphaerotherax*; collection catalog. “Congo.”
- Bouillon and Mathot, 1965: 32, 47, 86, 87, pl. 11: figs. 29a–c • *Sphaeroterme sphaerotherax*; catalog; soldier figured. Angola; Central African Republic.

***Ancistrotermes latinotus* (Holmgren, 1912)**

Microtermes latinotus Holmgren, 1912a: 42, 44 (imago, soldier) [Holmgren, 1912a: 42 listed under the genus *Microtermes* a new species name, *latinotus* from Luapula [Congo-Zaire or Zambia] and stated on p. 44 that Silvestri's illustrations of the soldier of *Termes crucifer* (1912b: 4, 5) do not agree with the type of *crucifer* and belong to a new species, which Holmgren designated *Microtermes latinotus* n. sp. In 1913d Holmgren, in a key to the African *Microtermes*, mentioned for the first time the characters of the imago of *latinotus* and in the same key distinguished the soldier of "*Microtermes latinotus* n. sp." from *crucifer*, *cavithorax*, and *guineensis*, based on the pronotum's being wider than the head. However, Holmgren, without seeing the specimen, based *latinotus* solely on Silvestri's figure, not realizing that the head and the thorax had been drawn to different scales, giving the impression that the thorax (pronotum) was much wider than the head. Silvestri, 1914a, provided the first detailed description of *latinotus*, along with illustrations of both imago and soldier, giving the authorship of the species to Holmgren, but mentioning the locality as Malanga, Angola (a locality listed by Sjöstedt in 1900a under *Termes crucifer*), with no reference to the original locality mentioned by Holmgren. In 1926d Sjöstedt gave the authorship of *latinotus* to Silvestri, citing as his reason that Holmgren's description of the soldier was based on an inaccurately proportioned illustration. However, Holmgren is the author of this species, by bibliographic reference to the specimens of Silvestri, 1912b].

Hypotermes winifredi (Ahmad, 1953)

Odontotermes (Hypotermes) winifredi Ahmad, 1953b: 38–40 (imago, soldier), figs. 2, 3 [Based on annotations to Ahmad, 1953 and subsequent spellings (e.g., Ahmad, 1958), it appears that Ahmad intended the specific name to honor a female, but erroneously gave it a masculine ending; however, the incorrect original spelling must be used, as there is no evidence of error in the original description].

TYPE DATA: Lectotype: COM soldier. Paralectotypes: COM imagoes, soldiers, AMNH soldiers, FRI soldier, FRI soldier.

LECTOTYPE DESIGNATION: Chatterjee and Thakur, 1963b: 196 [Because Ahmad's "holotype" vial contained both a soldier and an imago and Ahmad did not specify the caste of the "type," the selection of the soldier as the "holotype" by Chatterjee and Thakur is an inadvertent lectotype designation].

TYPE LOCALITY: Sri Lanka (Ceylon): Colombo.

Amplitermes Sjöstedt, 1926d: 81 [Sjöstedt, 1926d and Ruelle, 1970, following Sjöstedt, incorrectly proposed *Amplitermes* as a “nomen novum” for Holmgren’s 1909 concept of the subgenus *Termes*. This designation is not valid, since Holmgren never proposed a new subgenus *Termes*. Holmgren’s use of the subgenus *Termes* was not as the proposal of a new genus-group name but instead a misconception of the group. Thus, Holmgren, 1909 had not proposed a junior homonym of *Termes* Linnaeus (1758), and Sjöstedt’s “new name” is actually a new genus].

TYPE SPECIES: *Termes bellicosus* Smeathman, 1781 by original designation.

- Sjöstedt, 1926d: 366 • *Amplitermes*; synonymized with *Bellicositermes*.

Termes muelleri Sjöstedt, 1898b: 205 (major and minor soldier, worker) [*Termes mülleri* Sjöstedt, 1898 is a junior primary homonym of *Termes mülleri* Jhering [Ihering], 1887. Sjöstedt, 1900a used a new name, *Termes gabonensis*, for *Termes mülleri* Sjöstedt, 1898. Sjöstedt, 1926d, after shifting the species to *Macrotermes*, restored the name *mülleri*. The name *mülleri* has been considered the valid name since then. Ruelle, 1970: 405 stated that Sjöstedt was justified in reverting to the name *mülleri*, as *Termes mülleri* Jhering [Ihering], 1887 is a nomen nudum, since, according to him, it lacked a description. However, Jhering [Ihering], 1887 does mention some comparative characters, which, though brief, constitute a description according to ICZN, 1999, art. 12. Therefore, Sjöstedt's 1900 change of name to *gabonensis* was correct, and his reversion to *mülleri*, along with the use of the name by subsequent authors, is incorrect].

Macrotermes vitrialatus (Sjöstedt, 1899)

Termes vitrialatus Sjöstedt, 1899a: 34–35 (imago).

TYPE DATA: Lectotype: ZMH imago ♂ [Sjöstedt included in his description a single male imago and three queens from two localities: the imago from “an Bord” and the queens from Umangi. He did not fix a type locality; therefore Weidner’s 1955e citation of the “holotype” was a lectotype designation, but possibly in error as to the sex of the imago, which he later gave as female: Weidner, 1966a. Ruelle 1970: 438 stated that this species was originally known only from alates; he did not mention the queens included in this species by Sjöstedt. Emerson studied the queens from Umangi in 1957 and concluded that they are not *vitrialatus* (AMNH unpublished card catalog)]. Paralectotypes: NHRM queen [not type locality; Emerson studied the specimen from Umangi in 1957 and concluded that it is not *vitrialatus* (AMNH unpublished card catalog)], RIB queen [not type locality; Emerson studied the specimen from Umangi in 1957 and concluded that it is not *vitrialatus* (AMNH card catalog)].

Odontotermes species inquirendae

***Termes nigricans* Rambur, 1842: 308 [Holmgren (1911d: 546) identified a damaged imago specimen of *T. nigricans* Rambur in the Vienna Hofmuseum, which came from the Freiburg Museum and was also examined by Hagen, as an *Odontotermes*, not a *Syntermes*. Since *Odontotermes* does not occur in America, but is typical of Africa and India, and since Rambur's locality identifications are, according to Hagen, sometimes incorrect, Holmgren states that the locality given by Rambur as Brazil is suspect and that the specimen comes**

closest to *T. dives* from India. Holmgren also examined the soldier studied by Hagen, which belongs to a form that does not occur in America but is typical for Africa and India. Also see *Termes nigricans*; Hagen, 1858c: 162, Brazil. Snyder, 1949a: 225 considers it a synonym of *Odontotermes dives*, in which case it will have priority over *dives*. Further, Emerson in 1957 examined the type (male imago) in the Brussels Museum and tentatively identified it as an *Odontotermes*, but mentioned that the type locality, Brazil, might be incorrect, as this genus is found only in the Oriental and African Regions (unpublished notes). Snyder, 1949a: 350 and Constantino, 1998b: 211 list *Termes nigricans* under Unclassified Species. For additional references to *T. nigricans*, see Snyder, 1949a: 350].

Termes sumatrense Blanchard, 1849: pl. 106: fig. 4 (queen) [Blanchard gives only the figure of a queen from Sumatra, without any description. Hagen, 1858c considers *sumatrense* a probable synonym of *Termes taprobanes* Walker (now = *Odontotermes taprobanes*). Snyder, 1949a, following Hagen, considers it a junior synonym of *taprobanes*. *Odontotermes taprobanes* is apparently restricted to Sri Lanka (fide Thakur, 1976), making it very unlikely that *sumatrense* is conspecific with *taprobanes*. However, since Blanchard gives no description and since his specimens are unknown, it is impossible to determine the identity of *sumatrense*, and we are classifying it as a species inquirenda].

Termes similis Hagen, 1858c: 167, soldier, worker only, pl. 1: fig. 5 [Emerson, 1952b: 490–493 described a new species, *araujoi*, based on the soldier of the syntype series of *Termes similis* Hagen, 1858. The syntype series is mixed, with the imago being *Cornitermes similis* while the soldier is *Procornitermes araujoi* but, as no type has been designated, the name is listed herein under both senior synonyms until such time as the name is definitely affixed to one caste or the other by selection of lectotype. It is advisable that the imago be selected as lectotype, because, if the soldier is selected, the name *similis* Hagen, 1858 will have priority over *araujoi*, Emerson, 1952b].
