MANUSCRIPT REVIEWERS FOR 2015 (VOLUME 69)

This year the Journal is honored to acknowledge the contributions of 68 reviewers, representing 18 countries and 26 states within the United States. The contributions of these reviews significantly improved the quality of the manuscripts published in 2015 and the Society is thankful for the time and energy spent to perform reviews. The Journal's continued success owes a great deal to the rigorous reviews provided by Lepidopterists worldwide.
