BioOne Complete ([complete.BioOne.org](https://complete.BioOne.org)) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at [www.bioone.org/terms-of-use](https://www.bioone.org/terms-of-use).

Usage of BioOne Complete content is strictly limited to personal, educational, and non-commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

---

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## Notes on early land plants today 77. *Lophocolea alpicola* (J.J.Engel) comb. nov.

Lars Söderström, Anders Hagborg and Matt von Konrat

L. Söderström (<https://orcid.org/0000-0002-9315-4978>) ([lars.soderstrom@ntnu.no](mailto:lars.soderstrom@ntnu.no)), Dept of Biology, Norwegian Univ. of Science and Technology, Trondheim, Norway. – A. Hagborg (<https://orcid.org/0000-0001-8390-319x>) and M. von Konrat (<https://orcid.org/0000-0001-9579-5325>), Gantz Family Collections Center, The Field Museum, Chicago, IL, USA.

When *Chiloscyphus alpicola* J.J.Engel was described it was placed in a section together with *Chiloscyphus aperticaulis* J.J.Engel, which in the concept used in Söderström et al. (2016; WCL) is included in *Lophocolea*. There exists no combination for *Chiloscyphus alpicola* in *Lophocolea* (Dumort.) Dumort. Thus the new combination is needed.

*Lophocolea alpicola* (J.J.Engel) L.Söderstr. et A.Hagborg, comb. nov. Basionym: *Chiloscyphus alpicola* J.J.Engel, Phytotaxa 207(2): 181, 2015 (Engel 2015). Holotype: New Zealand, South Island, Nelson Prov., Nelson Lakes Natl. Park, E slope of Robert Ridge in vicinity of Mt Robert Skifield, W

end of Lake Rotoiti, SSW of St Arnaud, 1400–1480 m a.s.l., Engel 22832 (F); isotype: (CHR).
