BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

Appendix 12

Listed amphibian, bird and mammal species recorded from reserves studied during the RAP survey

Threat Status based on the IUCN Red List categories which include, from most to least threatened:

Critically Endangered (CR)

Endangered (EN)

Vulnerable (VU)

Near Threatened (NT)

Lower Risk/near threatened (LR/nt)

Data Deficient (DD) (IUCN 2007)

#IUCN = total number of species recorded in the above categories that are listed on the IUCN Red List

* = not of conservation concern during this survey

** = possibly present
