BioOne Complete ([complete.BioOne.org](https://complete.BioOne.org)) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at [www.bioone.org/terms-of-use](https://www.bioone.org/terms-of-use).

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

---

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## Acknowledgements

A number of people working together are needed to organize and implement a successful RAP survey. We are grateful to CI-Ghana's staff (Okyeame Ampadu-Agyei, Yaw Osei-Owusu, Emmanuel Owusu and Philip Badger) for their guidance and support, without which this project would not have been possible.

We also wish to thank Newmont Mining Corporation and Newmont Ghana Gold, Ltd. for funding this survey and specifically Nick Cotts, Rick Morrow, Robin Budden, Alan Tapp and Oduro-Kwarteng for their support with logistics, mapping and community engagement. We gratefully acknowledge the contributions of the RAP scientists (Oscar I. Aalangdong, Eddie Kofi Abban, Joseph Somua Amakye, Godwin Amegbe, Nicholas Anawoe, Marek Bakowski, Patrick Barrière, Jonathan Dabo, Ron Demey, Yéo Kolo, Adam Leaché, Piotr Naskrecki, James Samman, D.E.K.A. Siaw) and field assistants (Caleb Ofori-Boateng, Hormenyo Augustine, Kwaku Oduro Lokko, Ernestina Doku-Marfo, Vincent Awotwe Pratt) and extend our appreciation to their respective institutions for enabling them to participate in the project.

The people that live in the surrounding area are to be commended for their interest in the biodiversity of their region. We would specifically like to thank the Chief Executive and District Assembly of New Abirem District of the Eastern Region, the Chief and people of New Abirem and the Chief and people of Abenaso near Jamestown for their support of this work.

We are also thankful to many individuals for their help before, during and after the survey. These include Leeanne Alonso, Leslie Kasmir, Peter Hoke and Heather Wright for organizing the international aspects of the survey, Dr. Anim-Kwapong, head of the Cocoa Research Station of CRIG at Afosu, for supporting the team with manpower and storing equipment and field supplies at the station between an earlier survey and this one, Isaac Amissah for his continued videography of Ghanaian RAP surveys, our cooks, Nat and Foster, for providing the team with sustenance, our drivers, Collins Nuamah and Kwesi Badu, for carrying us to our destinations safely, Jennifer McCullough Hole for editing and pulling this report together, Glenda Fábregas and Kim Meek for preparing the report for printing and Mark Denil for patiently designing yet another RAP survey map.
