

ACKNOWLEDGEMENTS

Many individuals have provided their time and expertise in the development of this guide – and we thank them all. We are especially grateful to Tony Rees (CMAR) and Wieslaw Jablonski (UTAS) for assistance with the Scanning Electron Microscopy and to Peter Last for assistance with identification of selected fish species. The former Department of Sea Fisheries and the Inland Fisheries Commission are gratefully acknowledged for providing access to many prey specimens. We are indebted to Norbert Klages for his extensive input over the

protracted development of this guide. We are also grateful to Louise Bell for her knowledge in image preparation, Jo Eberhard for assistance with line drawings, and Roger Kirkwood for input into several regression analyses. We would particularly like to thank George Jackson and Sue Gibbs for their manuscript review and invaluable comments. And lastly, Oliver Gales and Caitlin Gunn are thanked for their assistance with final detail checking – Elsa Gales and Simon Gunn are thanked for letting them.
