

LIST OF ABBREVIATION IN FIGURES AND DIAGRAMS

ax - axon, nerve terminal	mv - microvillus
bf - basal folding	m vb - multivesicular body
bl - basal lamina	n - nucleus
cb - cytoplasmic bridge	nl - neurilemma
cp - coated pit	no - nucleolus
cp - cytoplasmic projection	np - nuclear pore
ct - cuticle, cuticular lining	ng - neurosecretory granule
cte - connective tissue envelope	nt - neurotubules
cv - coated vesicle	ph - phagosome
d - desmosome	ply - primary lysosome
db - dense body	prc - procuticle
dn - dendrite	r - ribosome
EPC - epithelial cell	rb - residual body
epc - epicuticle	rer - rough endoplasmic reticulum
gc - Golgi complex	SCC - secretory cell
gl - glycogen	sd - septate desmosome
gv - Golgi vesicle	ser - smooth endoplasmic reticulum
gx - glycocalyx	sg - secretion granule
its - intercellular space	sly - secondary lysosome
li - lipid droplet	sv - synaptic vesicle
ly - lysosome, lysosome-like structure	T - trachea
m - mitochondrion	tc - tubular compartment
MS - muscle	TR - tracheola
mt - microtubule	UDC - undifferentiated cell
