**Distribution (Map 1).** Downes (1957) gave the first North American records: Vancouver Island and lower mainland of British Columbia; the earliest collections were made in 1949. It now has been reported from California (USDA 1964c) and Oregon and Washington (Lattin & Stonedahl 1984).

The Old World range includes Great Britain, much of Europe, northern Africa, and Asia Minor (Carvalho 1958a, b; Lattin & Stonedahl 1984). The record of this species from Turkestan has been referred to *Cyllecoridea decorata* Kiritshenko (Kerzhner 1967).
