

Parasite Index

Valid species-group names are in roman type, valid genus-group names in boldface, suprageneric names in capitals, and synonyms (including errors and emendations) in italics. An asterisk (*) before an italicized name means a misidentification.

- abdominalis, 4, 9, 17, 20, 23, 37, 42–45, 84, 87, 89–92, **93–95**, 97, 101, 129
albata, 5, 49, 100, 102, 106, **130–131**
