BioOne Complete ([complete.BioOne.org](https://complete.BioOne.org)) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at [www.bioone.org/terms-of-use](https://www.bioone.org/terms-of-use).

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

---

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

## Organizational Profiles

### **CENTER FOR APPLIED BIODIVERSITY SCIENCE (CABS)**

---

The mission of the Center for Applied Biodiversity Science (CABS) is to strengthen the ability of Conservation International and other institutions to identify and respond to elements that threaten the earth's biological diversity. CABS collaborates with universities, research centers, multilateral government and non-governmental organizations to address the urgent global-scale concerns of conservation science. CABS researchers are using state-of-the-art technology to collect data, consult with other experts around the world, and disseminate results. In this way, CABS research is an early warning system that identifies the most threatened regions before they are destroyed. In addition, CABS provides tools and resources to scientists and decisions-makers that help them make informed choices about how best to protect the hotspots.

### **CONSERVATION INTERNATIONAL**

---

Conservation International (CI) is an international, nonprofit organization based in Arlington, Virginia, USA. CI believes that the Earth's natural heritage must be maintained if future generations are to thrive spiritually, culturally and economically. Our mission is to conserve the Earth's living heritage, our global biodiversity, and to demonstrate that human societies are able to live harmoniously with nature.

### **CONSERVATION INTERNATIONAL – GUYANA**

---

Conservation International has been active in Guyana since 1990 and operates under a Memorandum of Understanding (MOU) signed with the Government of Guyana. CI-Guyana's staff is comprised of 100% Guyanese, a group committed to assisting with the development of Guyana in an environmentally sustainable, culturally appropriate, and economically sensitive manner. The vision of CI-Guyana is to establish Biodiversity Corridors in Guyana, incorporating the anchors of a National Protected Area System, while developing trans-boundary corridors across the Guayana Shield. CI-Guyana has been working with the Government of Guyana and resident indigenous communities to develop long-term and sustainable management for the establishment of protected areas, helping to develop protected area legislation in Guyana and actively working with the Government to endow and establish a protected areas trust fund to finance the management of Guyana's protected areas in perpetuity.
