Publishing new research from the full spectrum of ornithology since 1899.

THE CONDOR ONLINE: Access the Cooper Ornithological Society's website, www.cooper.org, to find tables of contents and abstracts for issues from February 2001 through the forthcoming issue, in English and Spanish. The COS website also provides prospective authors with current instructions for authors.

The largest known concentration of the Sarus Crane (*Grus antigone*) breeds in a densely populated agricultural region of Uttar Pradesh, India. Here Sundar (pp. 611–623) found the cranes prefer to nest in natural wetlands rather than rice fields but enjoy similar success in both habitats, as a result of toleration by local farmers. Photograph of a pair of Sarus Cranes at their nest near Etawah, India, by K. S. Gopi Sundar, gopi@savingcranes.org.
