**Subject Index, 2014**

**A**

*Actinobacillus pleuropneumoniae*

isolated from layers showing signs of infectious coryza, 638

crude protein

measurement for diagnosis of avian aspergillosis in falcons, 587

adenovirus

prevalence of exposure in Ontario broiler flocks, 71

adenovirus-vectored vaccine

for infectious bronchitis using S1 proteins, 211

American crows

mortality from West Nile virus and other viral infections in California, 255

AMP-activated protein kinase α&ndashproliferator-activated receptor α

pathway genes

expression in chickens exposed to cold stress, 415

amputation

of polymelia in layer, 330

*Anodorhynchus hyacinthinus*

ulcerative dermatitis and endocarditis caused by *Staphylococcus aureus*, 223

*Anas* sp.

prevalence of avian paramyxovirus serotypes, 306

*Auer anser domesticus*

prevalence of avian paramyxovirus serotypes, 306

Anseriformes

evaluation of avian influenza diagnostic tests, 53

antibiotic resistance

of *E. coli* in Indian backyard layers, 39

of *Salmonella enterica* in poultry operations in Mississippi, 64

antibiotics

susceptibility of avian pathogenic *E. coli* in Belgium, 271

*Apteryx mantelli*

fatal toxoplasmosis, 171

isolation and identification of *Aspergillus* spp., 16

*Ara ararauna*

lymphosarcoma with monoclonal hyperglobulinemia, 326

with nectrotic enteritis, 650

Arkansas

occurrence of turkey enteric coronavirus, 313

ArkDPI-derived vaccines

for infectious bronchitis, 102

Asia

avian influenza vaccination planning tool, 437

Aspergillus fumigatus

diagnostic tools for detection in falcons, 587

*Aspergillus* spp.

isolation and identification in brown kiwi houses, 16

astroviruses

in Polish turkey farms 2009–2012, 158

atherosclerosis

and nutrition in captive black kites, 176

Australia

prevalence of avian influenza viruses in shorebirds, 199

avian adeno-associated virus

prevalence of exposure in Ontario broiler flocks, 71

avian aspergillosis

diagnostic tools for detection in falcons, 587

avian Beta-Defensin-2, -6, and -12

antimicrobial efficacy against common bacterial pathogens, 541

expressed as recombinant proteins, 541

avian bornavirus

causes proventriculat dilatation disease in parrots, 187

avian botulism

in the summer season in Korea, 666

avian influenza

evaluation of diagnostic methods in wild birds, 53

avian influenza A, H5N1

prevalence and distribution of clade variants in live bird markets in Vietnam, 599

avian influenza virus

in migratory waterfowl, 531

occurrence in mute swans in US, 129

prevalence in Australian Charadriiforms, 199

avian influenza virus, H5N1

In Vitro inactivation by chemical disinfectants, 462

strains isolated from ostriches in Saudi Arabia, 309

survivability in water between strains, 453

vaccination planning tool, 437

avian influenza virus, H5N2

H5N2 in Canadian turkey breeder flocks, 1

avian influenza virus, H6N2

isolated in green peafowl, 632

avian influenza virus, highly pathogenic

effectiveness of vaccines in Mexico, 359

In Vitro inactivation by chemical disinfectants, 462

strains isolated from ostriches in Saudi Arabia, 309

survivability in water between strains, 453

vaccination planning tool, 437

avian influenza virus, low pathogenic

H5N2 in Canadian turkey breeder flocks, 1

avian influenza virus vaccine, H5N1

vaccination planning tool, 437

avian influenza virus vaccine, H7N3

potency, efficacy, and antigenic mapping, 359

avian leucosis virus, subgroup E

rapid profiling assay for chickens, 34

avian leukosis virus

not infectious to humans, 345

avian malaria

found in budgerigars in New Zealand, 111

avian metapneumovirus, subtypes A and B

real-time reverse transcription-PCR for detecting, 216

avian orthoreovirus

infection in breeder chicks, 659

avian orthoreovirus vaccine

against viral arthritis in breeder chicks, 659

avian paramyxovirus

serotype prevalence in synanthropic and semi–free-range birds, 306

avian paramyxovirus serotype 1

occurrence in mute swans in US, 129

avian sarcoma virus

not infectious to humans, 345

avian type C botulism

outbreak in waterbirds in Poland, 488

*Avibacterium paragallinarum*

diagnostic tools for detection in falcons, 587

not infectious to humans, 345

rapid profiling assay for chickens, 34

avian leucosis virus

not infectious to humans, 345

avian orthoreovirus vaccine

against viral arthritis in breeder chicks, 659

avian paramyxovirus

serotype prevalence in synanthropic and semi–free-range birds, 306

avian paramyxovirus serotype 1

occurrence in mute swans in US, 129

avian sarcoma virus

not infectious to humans, 345

avian type C botulism

outbreak in waterbirds in Poland, 488

*Avibacterium paragallinarum* serovars

isolates for Mexico and Ecuador, 143

phylogenetic relationships between C-1 isolates, 143

*Avibacterium paragallinarum* serovar B-1

genotyping, pathogenicity, and immunogenicity, 293

backyard poultry

seroprevalence of respiratory pathogens, 623

barn owls

blood reference values, 228

beak and feather disease virus

infection associated with beak and feather disorders in Gouldian finch flock, 482

Belgium

susceptibility to antibiotics, disinfectants and integron prevalence of *E. coli*, 271

biochemistry

normal reference values for barn owls, 228
Subject Index

birds of prey
  infections of Campylobacter spp. in Italy, 303
black kites
  atherosclerosis in captive birds, 176
blackhead disease
  pathogenesis in specific-pathogen-free layers and broilers, 427
  resistance to nitarsone, 60
bleach
effectiveness at cold temperatures against IBD and ND viruses, 249
blindness
  and retinopathy in guinea fowl, 337
blue and gold macaw
  lymphosarcoma with monoclonal hyperglobulinemia, 326
botulinum neurotoxin
  causing avian botulism in the summer season in Korea, 666
Brazil
  proventricular dilatation disease caused by avian bornavirus, 187
  rotavirus A in poultry farms, 153
  rotavirus F in poultry farms, 458
broiler breeders
  Leucocytozoon caulleryi infection, 183
  occurrence of rotavirus A in Brazil, 153
broiler breeder chicks
  postvaccinal reovirus infection, 659
broiler chicks
  copper toxicity caused by excessive trisomic copper chloride, 638
  evaluation of an irradiated oocyst vaccine for coccidiosis, 391
broilers
  assessment of rotavirus F in Brazil, 458
  changes in pectoralis major muscles during heat stress, 377
  choristoma case study, 495
  Gyrovirus 2 and avirulent Newcastle disease coinfection, 90
  inactivation of H5N1 viruses using chemical disinfectants, 462
  mucin gene mRNA levels in Eimeria and Clostridium infections, 408
  Newcastle disease virus in formalin-fixed tissue samples, 118
  occurrence of rotavirus A in Brazil, 153
  pathogenesis of histomonosis, 427
  prevalence of exposure to viral pathogens in Ontario, 71
broilers, free range
  outbreak of fowl cholera from feral cats, 124
brown kiwi
  isolation and identification of Aspergillus spp., 16
budgerigars
  avian malaria and novel polyomavirus infections in New Zealand, 111

calcium phosphate
  adjuvant effect in Newcastle disease vaccine, 46
California
  mortality in crows from West Nile virus, 255
  occurrence of turkey viral hepatitis between 2000–2012, 205
Campylobacter spp.
  occurrence in birds of prey in Italy, 303
cats, feral
  source of fowl cholera outbreak, 124
cecal tonsils
  atrophy caused by Marek’s disease virus, 262
Charadriiformes
  evaluation of avian influenza diagnostic tests, 53
  prevalence of avian influenza viruses in Australia, 199
chemical disinfectants
  effectiveness against H5N1 viruses, 462
  effectiveness at cold temperatures against IBD and ND viruses, 249
chicken anemia virus
  prevalence of exposure in Ontario broiler flocks, 71
chicken embryo lethality assay
  for pathogenic Enterococcus cecorum, 244
chicken granulosa cells
  growth impeded by Salmonella Enteritidis infection, 511
chickens
  challenged with infectious bronchitis virus, 579
  challenged with infectious bursal disease virus, 579
  epithelial cell tumors of hen reproductive tract, 95
  liver damage from cold stress, 415
  outbreak of infectious laryngotracheitis in Central California, 558
  profiling assay for avian leucosis virus subgroup E, 34
  response to oil-adjuvanted recombinant vaccine for Leucocytozoon caulleryi, 609
China
  immune efficacy of various precocious strains of Eimeria acervulina, 367
  isolation and identification of duck Tembusu virus in ducks, 616
  survey of common avian infectious diseases, 297
Chinese ring-necked pheasants
  safety of fenbendazole, 8
chitosan
  adjuvant effect in Newcastle disease vaccine, 46
Chloebia gouldiae
  identification of Circovirus causing beak and feather disorders, 482
chondrocyte
differentiation during tibial dyschondroplasia impairment and recovery, 468
choristoma, proventricular cystic
  on the spleen of a broiler, 495
Ciconia ciconia
  prevalence of avian paramyxovirus serotypes, 306
Circovirus spp.
  infection associated with beak and feather disorders in Gouldian finch flock, 482
clostridial dermatitis
  in turkey production, 572
  Clostridium botulinum
  outbreak in waterbirds in Poland, 488
  produces botulinum neurotoxin, 666
Clostridium perfringens
  development of clostridial dermatitis in infected turkeys, 433
  mucin gene mRNA levels in infected broilers, 408
  Clostridium perfringens type A
  causing necrotic enteritis in captive macaws, 650
Clostridium septicum
  development of clostridial dermatitis in infected turkeys, 433
  treated with noncytolytic recombinant Clostridium septicum α toxin peptide, 566
coccidiosis
  evaluation of an irradiated oocyst vaccine for broilers, 391
  immune efficacy of various Chinese precocious strains, 367
cockatiel
  lymphosarcoma with monoclonal hyperglobulinemia, 326
Colomba livia var. domestica
  prevalence of avian paramyxovirus serotypes, 306
cold stress
  effects on livers of exposed chickens, 415
Colombia
  Salmonella Enteritidis and Gallinarum in layers, 165
  commercial poultry operations
  serotyping and antibiotic resistance of salmonellae in Mississippi, 64
  commercial turkey farms
  occurrence of astroviruses in Poland, 158
copper toxicity
  caused by excessive trisomic copper chloride, 638
coronavirus
  immunoglobulin A response following vaccination, 279
  occurrence in SE U.S. and Arkansas, 313
Coreus brachyphycalus
  mortality from West Nile virus and other viral infections in California, 255
Cutornix coturnix japonica
  outbreak of fowl typhoid, 491
cross protection
  between different infectious laryngotracheitis viruses, 147
crows mortality from West Nile virus and other viral infections in California, 255
Cyclin-I expression during tibial dyschondroplasia impairment and recovery, 468
Cygnus olor Newcastle disease virus, avian influenza, and Salmonella spp., 129
cytokine genes expression evaluation as indicator of innate immune function in chickens, 579
dexamethasone for immunosuppression of turkeys, 433
to test relation of stress to clostridial dermatitis in turkeys, 572
diagnostic methods, evaluation for avian influenza in wild birds, 53
diagnostic test for detecting avian metapneumovirus subtypes A and B, 216
for detecting Marek’s disease virus subtype CVI988, 232
diamond doves mycobacteriosis in a Japanese flock, 383
disinfectants susceptibility of avian pathogenic E. coli in Belgium, 271
distribution of common avian infectious diseases in China, 297
ducks, domestic prevalence of avian paramyxovirus serotypes, 306
duck Tembusu virus isolation and identification in ducks, 616
diagnostic tools for detection of avian aspergillosis, 587
fancy breed chickens seroprevalence of respiratory pathogens, 623
fenbendazole safety in Chinese ring-necked pheasants, 8
flying prevalence of avian influenza virus in migratory waterfowl, 531
fowl adenovirus prevalence of exposure in Ontario broiler flocks, 71
fowl cholera outbreak in free range broilers, 124
fowl typhoid outbreak in a flock of Japanese quail, 491
Salmonella Enteritidis and Gallinarum in layers, 165
fusion protein in Newcastle disease viruses in Iran, 373

Ecuador
Avibacterium paragallinarum serovar B-1, 293
Avibacterium paragallinarum serovar C-1 isolates, 143
egg-drop syndrome isolation and identification in ducks, 616
egg production effect of H5N2 low pathogenic avian influenza outbreak in turkeys, 1
effect of Salmonella Enteritidis infection, 511
eggs detection of infectious bronchitis virus using qRT-PCR, 398
Egypt
inactivation of H5N1 in broilers, 462
Newcastle disease virus in formalin-fixed tissue samples, 118
outbreak of Newcastle disease in vaccinated broilers, 118
Eimeria acervulina characteristics of Chinese precocious strain, 367
immune efficacy of Chinese precocious strain, 367
Eimeria spp. evaluation of an irradiated oocyst vaccine for broilers, 391
mucin gene mRNA levels in infected broilers, 408
endocarditis, valvular caused by Staphylococcus aureus in a hyacinth macaw, 223
enteritis in turkeys in SE U.S. and Arkansas, 313
enterococcal spondylitis embryo lethality assay, 244
Enterococcus cecorum infection in racing pigeons, 654
Enterococcus cecorum, pathogenic embryo lethality assay, 244
epithelial cell tumors of hen reproductive tract, 95
Escherichia coli efficacy of Avian Beta-Defensin-2, -6, and -12, 541
egg peritonitis infection model in layers, 25, 343, 344
Escherichia coli, avian fecal detection using Taqman real-time PCR, 628

F
falcons diagnostic tools for detection of avian aspergillosis, 587
fancy breed chickens seroprevalence of respiratory pathogens, 623
fenbendazole safety in Chinese ring-necked pheasants, 8
flyways prevalence of avian influenza virus in migratory waterfowl, 531
fowl adenovirus prevalence of exposure in Ontario broiler flocks, 71
fowl cholera outbreak in free range broilers, 124
fowl typhoid outbreak in a flock of Japanese quail, 491
Salmonella Enteritidis and Gallinarum in layers, 165
fusion protein in Newcastle disease viruses in Iran, 373

G
Gallid herpesvirus 1 spatial and temporal epidemiology in Central California outbreak, 558
Gallid herpesvirus 2 evolution of field strains in Poland from 1974–2012, 550
gangrenous dermatitis treated with noncytolytic recombinant Clostridium septicum α toxin peptide, 566
gapeworm safety of fenbendazole in pheasants, 8
goose, domestic prevalence of avian paramyxovirus serotypes, 306
genomic analysis of goose hemorrhagic polyomavirus, 518
genotyping of Avibacterium paragallinarum serovar B-1, 293
Geopelia cuneata mycobacteriosis in a Japanese flock, 383
Germany liver pathology associated with increased mortality in turkeys, 474
Global Information Systems to map clustering of infectious laryngotracheitis, 558
goose hemorrhagic polyomavirus infection in geese in Poland, 518
Gouldian finch identification of Circovirus causing beak and feather disorders, 482
green peafowl novel H6N2 avian influenza virus, 632
grey partridge Myoplasma iouae isolated, 323
guinea fowl retinopathy and blindness, 337
gut-associated lymphoid tissue effects of Marek’s disease virus, 262
Gyrovirus 2 coinfection with Newcastle disease in broiler flock, 90

H
heat stress changes in muscle in rapidly growing broilers, 377
hematology normal values for barn owls, 228
Hemiphaga novaseelandiae fatal toxoplamosis, 171
hemorrhagic nephritis enteritis of geese in Poland, 518

*Histomonas meleagridis*
- pathogenesis in specific-pathogen-free layers and broilers, 427
- resistance to nitarsone, 60
- humoral immune response against histomonosis, 427
- hyacinth macaw ulcerative dermatitis and endocarditis caused by *Staphylococcus aureus*, 223
- hyperglobulinemia, monoclonal in lymphosarcoma in cockatiel and macaw, 326

Ichthyocotylurus erraticus
- fatal infestation in Inca terns, 333
- immunity
cross protection between different infectious laryngotracheitis viruses, 147
- immunogenicity
  - of *Avibacterium paragallinarum* serovar B-1, 293
  - immunoglobulin A early humoral response following mucosal coronavirus vaccination, 279
- Inca terns fatal *Ichthyocotylurus erraticus* infestation, 333
- India
  - *E. coli* antibiotic resistance and virulence in layers, 39
  - infectious bronchitis
    - protective properties of S1 proteins from recombinant adenoviruses, 211
    - infectious bronchitis vaccine
      - comparison of Arkansas Delmarva poultry Industry-derived, 102
      - using a recombinant ND LaSota virus, 83
    - infectious bronchitis virus
      - detection in eggs using real-time qRT-PCR, 398
      - effects of challenge in commercial chickens, 579
      - immunoglobulin A response to mucosal vaccination, 279
    - infectious bronchitis virus S2 expressed in recombinant ND virus, 83
    - infectious bursal disease virus
      - inactivation at low temperatures using disinfectants, 249
      - prevalence of exposure in Ontario broiler flocks, 71
    - infectious bursal disease virus, very virulent effects of challenge in commercial chickens, 579
    - infectious coryza
genotyping, pathogenicity, and immunogenicity of B-1 serotype, 293 in layers, 638
  - isolates for Mexico and Ecuador, 143
  - phylogenetic relationships between C-1 isolates, 143
- infectious diseases
  - distribution and types in China, 297
  - infectious laryngotracheitis virus
    - Australian and European/USA lineages, 147
    - cross-protective immune responses, 147
    - spatial and temporal epidemiology in Central California outbreak, 558
  - inflammatory cytokine genes
    - expression in chickens exposed to cold stress, 415
  - integron prevalence in Belgian strains of *E. coli*, 271
  - intracerebral pathogenicity
    - virulence of pigeon paramyxovirus type 1 before and after passages in chickens, 523
  - intranasal vaccine
    - adjuvant effect of chitosan and calcium phosphate in ND vaccine, 46
  - Iran
    - characterization and phylogenetic studies of Newcastle viruses, 373
    - Italy
      - infections of *Campylobacter* spp. in birds of prey, 303
  - Japan
    - mycobacteriosis in a diamond dove flock, 383

Japanese quail
- outbreak of fowl typhoid, 491

K
- kaka
  - fatal toxoplasmosis, 171
- kereru
  - fatal toxoplasmosis, 171
- kiwi
  - fatal toxoplasmosis, 171

L
- Larosterna inca
  - fatal *Ichthyocotylurus erraticus* infestation, 333
  - latex-agglutination diagnostic method
    - for detection of anti–Tembusu-virus antibodies, 616
- layers
  - *Actinobacillus pleuropneumoniae* isolate, 638
  - amputation of polymelia, 330
  - antibiotic resistance and virulence of *E. coli* in India, 39
  - *Escherichia coli* peritonitis infection model, 25, 343, 344
  - fowl typhoid in Colombia, 165
  - occurrence of rotavirus A in Brazil, 153
  - pathogenesis of histomonosis, 427
  - *Salmonella* Enteritidis infection, 511
  - susceptibility to antibiotics, disinfectants and integron prevalence of *E. coli*, 271

Leucocytozoon caulleryi
- in South Korean broilers, 183
- vaccination in chickens, 614
- lipid metabolism disorder
  - in chickens exposed to cold stress, 415
  - lipidosis
    - likely diagnosis for increased mortality in turkeys, 474

Subject Index

P
Panama

Avibacterium paragallinarum serovar B-1, 293

parrots

- proventricular dilatation disease caused by avian bornavirus, 187

Pasteurella multocida

outbreak in broilers spread by feral cats, 124

pathogenesis

Escherichia coli peritonitis in layers, 25, 343, 344

of histomonosis in specific-pathogen free layers and broilers, 427

pathogenicity

of Avibacterium paragallinarum serovar B-1, 293

pathotypes

and replication rates in Marek’s disease viruses, 287

Pavo muticus

- novel H6N2 avian influenza virus, 632

pectoralis major

- changes in capillary and myofiber density during heat stress, 377

Perdix perdix

- Mycoplasma isolated, 323

peritonitis

Escherichia coli infections in layers, 25, 343, 344

Phasianus colchicus

- safety of fenbendazole, 8

phylogenetic analysis

fusion proteins from Newcastle disease viruses, 373

of H5N1 avian influenza virus clade variants in live bird markets in Vietnam, 599

picobirnavirus

- molecular and phylogenetic analysis, 137

picornavirus

turkey viral hepatitis in California, 205

pigeon paramyxovirus type 1

- experimental infection of pigeons, chickens, turkeys, quails, and geese, 523

pigeons, feral

- prevalence of avian paramyxovirus serotypes, 306

Plasmodium spp.

- found in budgerigars in New Zealand, 111

Poland

- astroviruses in commercial turkey farms, 158

evolution of Marek’s disease virus field strains from 1974–2012, 550

outbreak of avian type C botulism in waterbirds, 488

polymelia

- in a layer, 330

polymerase chain reaction test, real-time

for detection of Rispens vaccine, 232

polyomavirus

- found in budgerigars in New Zealand, 111

protein electrophoresis

- for diagnosis of avian aspergillosis in falcons, 587

proventricular dilatation disease

avian bornavirus infections in captive parrots in Brazil, 187

psittacines

- proventricular dilatation disease caused by avian bornavirus, 187

psittacine beak and feather disease

- identification of similar virus in Gouldian finch flock, 482

R

racing pigeons

Enterococcus cecorum infection, 654

real-time PCR

- for detecting histomonal DNA, 427

real-time reverse transcriptase–PCR

- for estimation of viral shedding and distribution of pigeon paramyxovirus type 1 in tissues, 523

screening for H5N1 avian influenza virus in live bird markets in Vietnam, 599

N
necrotic enteritis

- in captive macaws, 650

mucin gene mRNA levels in infected broilers, 408

Nestor meridionalis

- fatal toplasmosis, 171

neuropathology

Gyrovirus 2 and avirulent Newcastle disease coinfection in broilers, 90

New Zealand

Aspergillus spp. in brown kiwi houses, 16

budgerigars with avian malaria and polyomavirus infections, 111

fatal toplasmosis in native birds, 171

Newcastle disease

occurrence in mute swans in US, 129

Newcastle disease vaccine

- adjuvant effect of chitosan and calcium phosphate, 46

experimental infection of pigeons, chickens, turkeys, quails, and geese, 523

Newcastle disease virus

- in formalin-fixed tissues in Egypt, 118

- inactivation at low temperatures using disinfectants, 249

outbreak in vaccinated commercial broilers, 118

studies of fusion protein from Iranian isolates, 373

Newcastle disease virus, avirulent

coinfection with Gyrovirus 2 in broiler flock, 90

Newcastle disease virus LaSota vector

in infectious bronchitis vaccine, 83

nitasone

- reduced sensitivity in Histomonas sp., 60

noncytolytic recombinant Clostridium septicum 7 toxin peptide against Clostridium septicum challenge, 567

Numidea meleagridis

- retinopathy and blindness, 337

Nymphicus hollandicus

- lymphosarcoma with monoclonal hyperglobulinemia, 326

O
oil-adjuvanted recombinant vaccine

- for Leucocytozoon caulleryi in chickens, 609

oncogenic viruses

- not infectious to humans, 345

Ontario

- prevalence of exposure of broilers to viral pathogens, 71

Ornithobacterium rhinotracheale

comparison of hemolytic and nonhemolytic isolates, 78

ostiches

- H5N1 avian influenza isolated in Saudi Arabia, 309

ovaries

- epithelial cell tumors in hens, 95

- ovary changes during heat stress in broilers, 377

ovaries

- peritonitis in layers, 25, 343, 344

Clostridium septicum

- infections in broilers, 408

Clostridium

- in chickens, 609

or 2 in broiler flock, 90

Gyrovirus

- in brown kiwi houses, 16

Subject Index
reassortants
of very virulent infectious bursal disease virus in chickens, 579
reference values
hematologic and biochemical for barn owls, 228
replication rates
 correlation with Marek’s disease pathotypes, 287
reproductive tract
epithelial cell tumors in hens, 95
respiratory pathogens
seroprevalence in hobby poultry, 623
reticuloendotheliosis virus
not infectious to humans, 345
retinopathy
leading to blindness in guinea fowl, 337
retrovirus
profiling assay for avian leucosis virus subgroup E, 34
reverse transcriptase–PCR
for detecting avian metapneumovirus subtypes A and B, 216
for detecting rotavirus F in broilers, 458
for novel picobirnavirus in turkeys, 137
reverse transcriptase–PCR, real-time quantitative
test for infectious bronchitis virus in embryonated eggs, 398
Rispens vaccine
diagnostic test for detecting and differentiating from other subtypes, 232
rotavirus A
in Brazilian poultry farms, 153
rotavirus F
in Brazilian poultry farms, 458

S
S1 proteins
protective properties against infective bronchitis, 211
Salmonella enterica
serotyping and antibiotic resistance in Mississippi poultry, 64
Salmonella enterica serovar Typhimurium
efficacy of Avian Beta-Defensin-2, -6, and -12, 541
Salmonella Enteritidis
in Columbian layers, 165
in layers, 512
Salmonella Gallinarum
in Columbian layers, 165
outbreak in a flock of Japanese quail, 491
Salmonella spp.
occurrence in mute swans in US, 129
Saudi Arabia, Kingdom of
H5N1 avian influenza isolated from ostriches, 309
septicemia, acute
in turkey pouls caused by Streptococcus sp., 318
seroprevalence
of respiratory pathogens in hobby poultry, 623
shorebirds
prevalence of avian influenza viruses in Australia, 199
South Africa
Gyrovirus 2 and avirulent Newcastle disease coinfection in broilers, 90
South Korea
Leucocytozoon caulleryi infection in broiler breeders, 183
spatial-temporal statistics
for infectious laryngotracheitis surveillance, 558
Staphylococcus aureus
causes ulcerative dermatitis and endocarditis in macaw, 223
efficacy of Avian Beta-Defensin-2, -6, and -12, 541
steroidogenesis
role in ovulation rate during Salmonella Enteritidis infection, 511
Streptococcus gallolyticus subsp. pasteurianus
causes acute septicemia in turkey pouls, 318
Struthio camelus
H5N1 avian influenza isolated in Saudi Arabia, 309
Surface Decontamination Foam
effectiveness at cold temperatures against IBD and ND viruses, 249
surveillance
for avian influenza viruses in Australia, 199
prevalence of avian infectious diseases in China, 297
Syngamus trachea
safety of fenbendazole in pheasants, 8

T
Taqman real-time PCR, duplex
for detection of avian pathogenic Escherichia coli isolates, 628
Taqman real-time PCR, single
for detection of avian pathogenic Escherichia coli isolates, 628
TaQMan real-time reverse transcription–PCR
one-step method for detecting turkey reoviruses, 404
tibial dyschondroplasia
expression of Matrilin-3 and Cyclin-I genes during impairment and recovery, 468
toxoplasmosis
in New Zealand native birds, 171
Toxoplasma gondii
fatal infections in New Zealand native birds, 171
trematodes
fatal Ilethycius phalium sp. infestation in terns, 333
tribasic copper chloride
causing copper toxicosis in broiler chicks, 638
turkey arthritis reovirus
detection using real-time reverse transcription–PCR, 404
turkey breeders
H5N2 low pathogenic avian influenza in Canada, 1
turkey clostridial dermatitis
effects of immunosuppression on development, 433
turkey enteric coronavirus
in Arkansas during 2012–2013, 313
in SE U.S. during 2012–2013, 313
turkey enteric reovirus
detection using real-time reverse transcription–PCR, 404
turkey pouls
acute septicemia caused by Streptococcus sp., 318
turkey viral hepatitis
occurrence in California between 2000–2012, 205
turkey reovirus
detection using real-time reverse transcription–PCR, 404
turkeys
astroviruses in Polish farms, 158
effects of immunosuppression on clostridial dermatitis development, 433
hemolytic Ornithobacterium rhinotracea isoIates, 78
liver pathology associated with increased mortality in Germany, 474
occurrence of viral hepatitis between 2000–2012 in California, 205
phylogenetic analysis of novel picobirnavirus, 137
sensitivity of Histonomas sp. to nitarsone, 60
treatment of clostridial dermatitis, 572
Tyto alba
blood reference values, 228

U
ulcerative dermatitis
caused by Staphylococcus aureus in a hyacinth macaw, 223
United States, Southeastern
occurrence of turkey enteric coronavirus, 313

V
vaccination, mucosal
immunoglobulin A early humeral response to coronavirus, 279
vaccine
efficacy and potency against H7 avian influenza, 359
for avian influenza virus, 437
for Eimeria acervulina using Chinese precocious strains, 367
for infectious bronchitis using ND LaSota vector, 83
for infectious bronchitis using S1 proteins and adenovirus vector, 211
for Leucocytozoon caulleryi using oil-adjuvanted recombinant, 609
noncytolytic recombinant Clostridium septicum α toxin peptide, 566

Downloaded From: https://bioone.org/journals/Avian-Diseases on 06 May 2020
