BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

CONTENTS

RESEARCH ARTICLES

DEMOGRAPHY

307 **Previous year's reproductive state affects Spotted Owl site occupancy and reproduction responses to natural and anthropogenic disturbances** by Derek E. Lee and Monica L. Bond

473 **Lifetime reproductive success of Snowy Plovers in coastal northern California** by Dana M. Herman and Mark A. Colwell

HABITAT SELECTION

320 **Evaluating exotic plants as evolutionary traps for nesting Veeries** by Lydia M. Meyer, Kenneth A. Schmidt, and Bruce A. Robertson

376 **Do fluctuating water levels alter nest survivorship in reservoir shrubs?** by Harry van Oort, David J. Green, Matthew Hepp, and John M. Cooper

430 **Fire severity affects mixed broadleaf–conifer forest bird communities: Results for 9 years following fire** by Jaime L. Stephens, Ian J. Ausprey, Nathaniel E. Seavy, and John D. Alexander

LANDSCAPE ECOLOGY

328 **Characteristics within and around stopover wetlands used by migratory shorebirds: Is the neighborhood important?** by Gene Albanese and Craig A. Davis

MIGRATORY CONNECTIVITY

341 **Distribution and movements of Alaska-breeding Steller's Eiders in the nonbreeding period** by Philip D. Martin, David C. Douglas, Tim Obritschkewitsch, and Shannon Torrence

414 **Stable hydrogen isotopes identify leapfrog migration, degree of connectivity, and summer distribution of Golden Eagles in eastern North America** by David M. Nelson, Melissa Braham, Tricia A. Miller, Adam E. Duerr, Jeff Cooper, Michael Lanzone, Jérôme Lemaître, and Todd Katzner

SURVEY METHODS

354 **Repeated count surveys help standardize multi-agency estimates of American Oystercatcher (*Haematopus palliatus*) abundance** by Nathan J. Hostetter, Beth Gardner, Sara H. Schweitzer, Ruth Boettcher, Alexandra L. Wilke, Lindsay Addison, William R. Swilling, Kenneth H. Pollock, and Theodore R. Simons

364 **Variables associated with detection probability, detection latency, and behavioral responses of Golden-winged Warblers (*Vermivora chrysoptera*)** by Kyle R. Aldinger and Petra B. Wood

386 **High-tech or field techs: Radio-telemetry is a cost-effective method for reducing bias in songbird nest searching** by Sean M. Peterson, Henry M. Streby, Justin A. Lehman, Gunnar R. Kramer, Alex C. Fish, and David E. Andersen

460 **Testing factors influencing identification rates of similar species during abundance surveys** by Anne L. Schaefer, Paul M. Lukacs, and Michelle L. Kissling

FORAGING ECOLOGY

396 **Foraging ecology of a reintroduced population of breeding Bald Eagles on the Channel Islands, California, USA, inferred from prey remains and stable isotope analysis** by Seth D. Newsome, Paul W. Collins, and Peter Sharpe

CONSERVATION GENETICS

447 **Genetic diversity of a tropical rainforest understory bird in an urban fragmented landscape** by Keren R. Sadanandan and Frank E. Rheindt

© 2015 Cooper Ornithological Society. ISSN 0010-5422, electronic ISSN 1938-5129
