Contents

The influence of seabirds on the concentration of selected heavy metals in organic soil on the Bellsund coast, western Spitsbergen
Marta Żołek, Piotr Bartmisiak, and Alfed Stach

Wind distortion in alpine and subantarctic plants is constant among life forms but does not necessarily reflect prevailing wind direction
Nicholas B. Fitzgerald and James B. Kirkpatrick

Respiration from soil and ground cover vegetation under tundra shrubs
Li Ge, Peter M. Lafleur, and Elyn R. Humphreys

Region-wide glacier mass budgets for the Tanggula Mountains between ~1969 and ~2015 derived from remote sensing data
An'an Chen, Ninglian Wang, Zhen Li, Yuwei Wu, Wei Zhang, and Zhongming Guo

Slope-fluvial system structure in the Western Tatra Mountains (Poland): slope-to-channel transition
Eliza Placzewska

Crevise-nesting auklets are early-successional species requiring disturbance to persist
Heather M. Renner, Lawrence R. Walker, Christopher F. Waythomas, Jeffrey C. Williams, and Yuri B. Artukhin

Vegetation greening trends at two sites in the Canadian Arctic: 1984–2015
Rebecca Edwards and Paul Treitz

Assessment of recent glacier changes and its controlling factors from 1976 to 2011 in Baspa basin, western Himalaya
Riyaz Ahmad Mir, Sanyaj K. Jain, Sharad K. Jain, Renoj J. Thayyen, and Arun K. Saraf

Holocene cyclic records of ice-rafted debris and sea ice variations on the East Greenland and Northwest Iceland margins

Solar UV upregulates photoprotection but slows photosynthesis in subalpine Australian plants
William T. Salter, Tarnyl L. Turnbull, Heinz Renneberg, and Mark A. Adams

Observation of strong winds on the northern slopes of Mount Everest in monsoon season
Fanglin Sun, Yaoming Ma, Ziyong Hu, Maozhai Li, Tobias Gerken, Lang Zhang, Cunbo Han, and Genhou Sun

Book Reviews

Cool Plants for Cool Climates: A Garden Designer’s Perspective, by Brenda C. Adams

Imagining the Supernatural North, edited by Eleanor Rosamund Barraclough, Danielle Marie Cudmore, and Stefan Donecker

Polar and Alpine Events Calendar
