BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

CORRECTIONS TO TWO ARTICLES . . .

I am writing to request that you include an errata in the next available issue of the *Journal of Wildlife Diseases*. Values of sodium:creatinine (Na:C) and potassium:creatinine (K:C) were presented in two articles as multiples of 100, when they actually represent multiples of 1,000.

Thus, in the following articles:

DELGIUDICE, G. D., P. R. KRAUSMAN, E. S. BEL-
LANTONI, M. C. WALLACE, R. C. ETCHBERGER,
AND U. S. SEAL. 1990. Blood and urinary pro-
files of free-ranging desert mule deer in Arizona.
Journal of Wildlife Diseases 26: 83–89.

DELGIUDICE, G. D., R. O. PETERSON, AND U. S. SEAL.
1991. Differences in urinary chemistry profiles
of moose on Isle Royale during winter. *Journal
of Wildlife Diseases* 27: 407–416.

All summary statistics presented for Na:C \times 100 and K:C \times 100 in these articles actually represent Na:C \times 1,000 and K:C \times 1,000.

I apologize for the error and any inconvenience. This correction is obviously important for accurate and valid comparisons of data with other studies.

Dr. Glenn D. DelGiudice, Forest Wildlife Populations
and Research Group, 1201 E. Highway 2, Grand Rapids,
