CORRECTION . . .

Corrections for drug sources

The following corrections apply to the Short Communication, *Immobilization of Rocky Mountain elk with Telazol® and xylazine hydrochloride, and antagonism by yohimbine hydrochloride*, by J. J. Millspaugh, G. C. Brundige, J. A. Jenks, C. L. Tyner, and D. R. Hustead, which appeared in the April 1995 issue of the Journal of Wildlife Diseases (Volume 31), pages 259–262. The source of Antagonil® should be Wildlife Pharmaceuticals, Fort Collins, Colorado (USA), and not Lloyd Laboratories as reported. Also, the yohimbine dose administered intramuscularly probably was 40 mg and not 4 mg as reported (page 260, column 2, line 18).

Terry Kreeger, International Wildlife Veterinary Services, P.O. Box 220, Cedar, Minnesota 55011, USA.
