RESEARCH ARTICLES

- 2 Jason P. Hollinger, Perry A. Scott and James C. Lendemer  
Two new species of lichenicolous *Arthonia* (Arthoniaceae) from southeastern North America highlight the need for comparative studies of lichen parasites and their hosts
- 22 André Aptroot, Robert Lücking and Marcela Eugenia da Silva Cáceres  
New species, records and combinations of Graphidaceae (lichenized fungi) from Brazil
- 56 Coral Matos, Amelia Merced and Tamara Heartsill-Scalley  
Habitat preferences and distribution of some common bryophytes in a tropical forest at the Luquillo Experimental Forest, Puerto Rico
- 66 André Aptroot, Lidiane Alves dos Santos, Isaias Oliveira Junior, Carlos Augusto Vidigal Fraga Junior, Adriano Afonso Spielmann and Marcela Eugenia da Silva Cáceres  
New lichen species from South Brazil
- 88 Yuriy S. Mamontov, Michael S. Ignatov, Dmitry V. Vasilenko and Evgeny E. Perkovsky  
Hepatics from Rovno amber (Ukraine): *Leptoscyphus davidii* sp. nov.
- 95 Yuya Inoue and Tatsuwo Furuki  
Systematic position of *Calypogeia asakawana* S.Hatt. ex Inoue (Calypogeiaceae, Marchantiophyta), with description of a new genus *Protocalypogeia*
- 104 M. S. Sajitha, C. N. Manju, O. M. Sruthi, K. P. Rajesh and K. K. Rawat  
A new subspecies of tropical African *Plagiochila squamulosa* Mitt. (Plagiochilaceae; Hepaticae) from the Southern Western Ghats of India
- 110 Eric F. Karlin  
Checklists for the *Sphagnum* (Sphagnaceae) species of New England, New York and New Jersey

RECENT LITERATURE

Lichenological  
Society

#### GENERAL INFORMATION

THE BRYOLOGIST publishes research papers and reviews dealing with all aspects of bryology and lichenology. All manuscripts are reviewed by two or more referees before acceptance. Deadlines for the four issues are the 15th of February, May, August, and November. Manuscripts should be submitted electronically to The Bryologist online at <http://www.editorialmanager.com/bryologist/>. Instructions to authors and editor contact information is available at [abls.org](http://abls.org) and at [PeerTrack/bryologist](http://PeerTrack/bryologist). Email contact for the journal is: [bryologist@peertrack.net](mailto:bryologist@peertrack.net)

THE BRYOLOGIST (ISSN 0007-2745), a journal devoted to the study of bryophytes and lichens, is published quarterly by The American Bryological and Lichenological Society, Inc. Renew subscription and membership online at: <http://abls.allenpress.com/ABLS>. Annual dues for membership in the Society are US\$25 (\$10 for students; \$35 for families; Emeritus (retired over 25 years) \$0; Contributing \$50; \$1000 for lifetime). The 2019 cost for individuals to receive THE BRYOLOGIST is an additional \$45 (online only), and to receive *Evansia* an additional \$15 (online only). Members with non-U.S.A. & non-Canada addresses must pay an additional amount for mailing costs: \$25 per year for THE BRYOLOGIST and \$10 per year for *Evansia*. U.S.A. institutions may subscribe to THE BRYOLOGIST hard copy for \$160 per volume (\$190 for all other institutions). The cost for *Evansia* hard copy for U.S.A. institutions is \$70 (\$80 for all other institutions). Airmail delivery can be arranged for an additional fee; contact the ABLs Membership Services Office <http://abls.allenpress.com/ABLS>. Contact the Secretary with any other questions: Diane Haughland, Alberta Biodiversity Monitoring Institute, Royal Alberta Museum 9810 103a Ave NW, Edmonton, AB, T5J 0G2 Canada. E-mail: [diane.haughland@gov.ab.ca](mailto:diane.haughland@gov.ab.ca)

POSTMASTER: send address changes to ABLs Member Services, 301 Concourse Blvd, Ste 210, Glen Allen, VA 23059. 785-289-2488.

The Bryologist and ABLs website is at <http://www.abls.org>

**Cover illustration:** At Black Pond Bog, Massachusetts, four *Sphagnum* species common in New England grow together near water level on a floating mat. With large red leaves having a spikey appearance, *S. medium* is prominent in the central portion of the photo. Also present are *S. recurvum* (yellow-brown plants), *S. cuspidatum* (green plants in water), and *S. rubellum* (smaller red plants below the cranberry [*Vaccinium macrocarpon*]). In this issue beginning on page 110, Karlin presents checklists and a key for the *Sphagnum* species that occur in the New England states, New York and New Jersey, following the updated taxonomy, which combines genetic data with the traditional morphological- and ecological-based species concepts, provided by Karlin (in press). Photo courtesy of Eric Karlin (taken on 2 January 2023).
