BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

CORRECTION TO NEW STATE RECORD AND NORTHERNEASTERN
RANGE EXTENSION FOR *CAENOLAX FENYESI* SENSU LATO
(STREPSIPTERA: MYRMECOLACIDAE)

JEYARANAY KATHIRITHAMBY¹, STEVEN J. TAYLOR² AND RICHARD LAREAU³

³1393 Thayer Hall Dr., Mt. Pleasant, SC 29466-9478

The females of *Caenolax fenyesi waloffi* Kathirithamby & Johnston were said in Kathirithamby et al. (2007) to stylize *Hapithus agitator* Uhler (Orthoptera: Gryllidae: Eneopterinae) in Mexico. This is incorrect. Female *C. f. waloffi* parasitize *Macroanaxipha macilenta* (Saussure) (Orthoptera: Gryllidae: Trigonidiinae) (Kathirithamby & Johnston 2004).
