As Amédégnato & Carbonell (1998) indicated, *Yungasacris* Ronderos 1987 (*nec* Rehn 1950) is in need of a replacement name. In 1950, the genus *Yungasacris* was described for two new species of phaneropterine katydids, *Yungasacris grata* Rehn 1950 (type species) and *Y. peruviana* Rehn 1950. Both names remain valid. However, in a revision of the melanopline genus *Pseudoscopus* Hebard in 1987, a genus was described for *Pseudoscopus hebari* Liebermann using the same name, *Yungasacris* Ronderos 1987. Here *Yungasus* is given as the new name for the preoccupied genus *Yungasacris* Ronderos 1987 (*nec* Rehn 1950).
