BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

ANNUAL THANKS TO REVIEWERS

Thank You to the Reviewers of the 2017 *Auk*, Volume 134

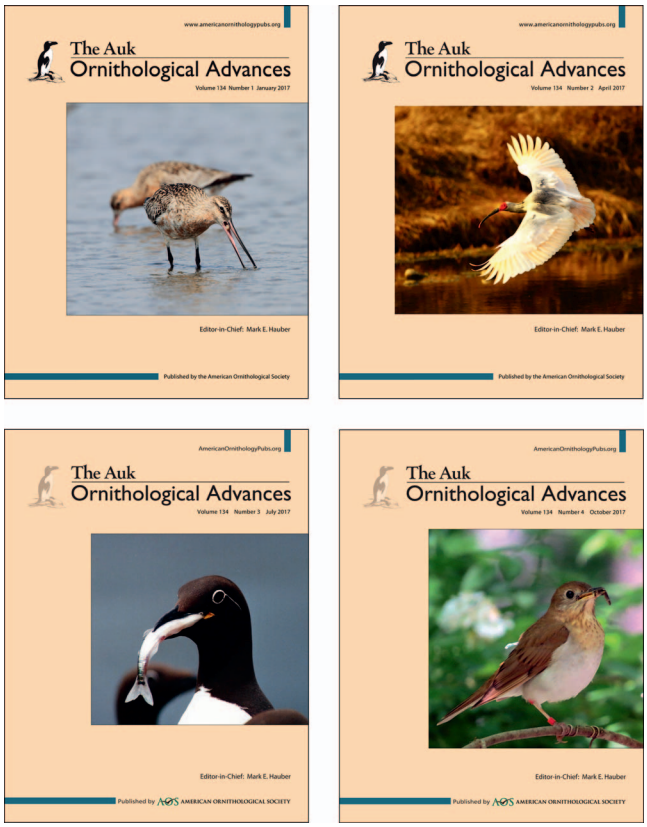

Mark E. Hauber

markehauber@gmail.com

Published September 27, 2017

Peer review, effective and timely, is the basis of respect in today's scientific publishing and is essential to the maintenance of high standards in any journal. The efforts of reviewers are critical, yet unpaid. Therefore, we at the American Ornithological Society and *The Auk: Ornithological Advances* thank all of you who contributed reviews while Volume 134 was in preparation (reviews completed between July 2016 and June 2017). Individuals with asterisks next to their names reviewed two or more manuscripts.

The Auk: Ornithological Advances is also grateful for the work of our two dedicated editors; our busy and gender-balanced board of associate editors; the editors of In Memoriam, Book Reviews, and 100 Years Ago; and the expert editorial team members in the AOS Publications Office whose work made another successful year of *The Auk* possible. We invite all of our authors, referees, and society members, and ornithologists around the world, to continue supporting and publishing basic and broadly applicable ornithological science in our journal.
