BioOne Complete (complete.BioOne.org) is a full-text database of 200 subscribed and open-access titles in the biological, ecological, and environmental sciences published by nonprofit societies, associations, museums, institutions, and presses.

Your use of this PDF, the BioOne Complete website, and all posted and associated content indicates your acceptance of BioOne's Terms of Use, available at www.bioone.org/terms-of-use.

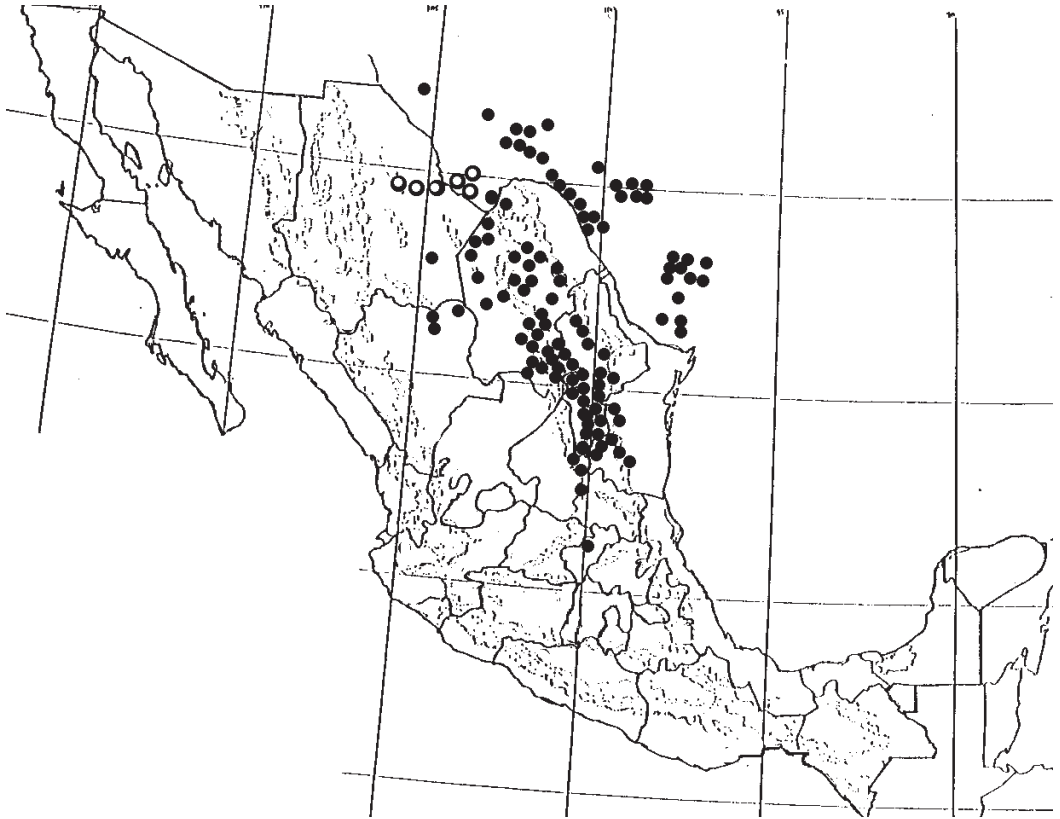

Usage of BioOne Complete content is strictly limited to personal, educational, and non - commercial use. Commercial inquiries or rights and permissions requests should be directed to the individual publisher as copyright holder.

BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

HELIOTROPIUM ADDENDUM

Billie L. Turner

Plant Resources Center, 1 University Station F0404, The University of Texas, Austin, Texas 78712-0471

In the issue of *Lundellia* 10 (Dec 2007), Turner (p. 8) provided a Figure reportedly showing the distribution *Heliotropium powellorum* and *H. torreyi*. Unfortunately the Texas collections of the latter were inadvertently excluded from the map. The Figure below will correct this mishap. *Heliotropium torreyi* with black dots, *H. powellorum* with open circles.
