BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.

al., 1984, *Condor*, 86: 333–336). This investigation further demonstrates the dangers of using a highly toxic organophosphate insecticide such as monocrotophos near areas where wildlife congregate, especially near wildlife refuges, which often are the only remaining suitable habitat for wildlife in agricultural areas.

We thank the personnel of the Santa Ana NWR for assistance in this investigation, and Lawrence Blus, Lawrence DeWeese, and two unidentified referees for critical reviews of the manuscript. Christine Mitchell provided technical assistance, and Deborah Holman and Patricia McDonald typed the manuscript.
