**BOOKS**

*Distributions and Phylogeography of Neotropical Primates: A Pictorial Guide to All Known New-World Monkeys*, by Marc G. M. van Roosmalen, Stephen D. Nash and Piero Gozzaglio. 2014. CreateSpace Independent Publishing Platform. 72 pp. ISBN: 978-1494852535. This is the first complete pictorial field guide to all the known Neotropical Primates. All taxa are depicted in full color according to their phylogeography. Included are also a number of recently identified but not yet published taxa new to science.

**ABSTRACTS**

Selected abstracts relating with Neotropical primates from the XXV Congress of the International Primatological Society, 11-17 August 2014, Hanoi, Vietnam.

Aquino CC, de Vivo M. 2014. A taxonomic review of the personatus species group, genus *Callicebus* Thomas, 1903 (Primates, Pitheciidae, Callicebinae).

Arruda MF, Araujo A, Lima AK, Hattori WT, Yamamoto ME. 2014. Dynamics of reproductive rearrangement in *Callithrix jacchus* groups.

Campos FA, Bergstrom, A Childers, JD Hogan, KM Jack, AD Melin, KN Mosdossy, MS Myers, NA Parr, Sargeant E, Schoof VA, Fedigan LM. 2014. Drivers of home range characteristics across spatiotemporal scales in a Neotropical primate, *Cebus capucinus*.

Canales-Espinosa D, Gómez-Espinosa E, Rangel-Negrín A, Dias PA. 2014. Do time budgets, ranging distances, and social behavior depend on feeding behavior in mantled howler monkeys?

Cásar C, Zuberbühler K, Byrne RW. 2014. Anti-predator behaviour of black-fronted titi monkeys (*Callicebus nigrifrons*).

Caselli CB, Mennill DJ, Setz EZ, Gestich CC, Bicca-Marques JC. 2014. Loud calls and territorial defense in *Callithrix jacchus* groups.

Chism J, Kieran T, Somers K. 2014. Vocal communication of sympatric equatorial and monk sakis (*Pithecia*...
Neotropical Primates 21(2), December 2014

Mourthe I, Bicca-Marcues JC. 2014. Spider monkeys (Ateles belzebuth) are generalist frugivores in a highly seasonal Amazonian forest.

Ottoni EB, Cardoso RM. Tool use traditions’ effects on problem-solving in two wild bearded capuchin monkey (Sapajus libidinosus) populations.

Schneider H, Monteiro E, Cunha DB, Carneiro JC, Sampaio I. 2014. The dwarf marmoset - a controversial new genus in the Callitrichines?

Silva FE, Nunes HG. 2014. Recent discoveries in primate diversity in Aripuana River basin, Amazon, Brazil.

Souza-Alves J, Caselli CB, Gestich CC, Nagy-Reis MB, Ferrari SF. 2014. Reproductive parameters and infant
development in different populations of *Callicebus personatus* group.

Spironello WR, Barnett AA. Sleeping sites in lowland forest primates – a Neotropical case study with *Sapajus paella*.

Strier KB, Mendes SL, Melo FR. 2014. Collaboration at the crossroads of conservation: examples from the Northern muriqui project of Brazil.

Takimoto A, Fujita K. The relationship between reciprocal tendency in prosocial reward sharing and rejection tendency of unfair offer in tufted capuchin monkeys.

Talbot CF, Leverett K, Beran MJ, Brosnan SF. 2014. Effect of familiarity on facial discriminations in capuchin monkeys (*Cebus apella*).

Talebi M, Pulito AP, Namikawa I, Rezende F. 2014. Corporate sector as an alternative strategy for primate conservation in Brazilian Atlantic forest.

Talebi M, Sala EA, Lucas PW. 2014. Physical properties of bamboo (*Guadua tagoara*) eaten by the endangered Southern muriqui (*Brachyteles arachnoides*) in Brazilian Atlantic forest.

Tavares MC, Sacramento TS, Mendes FD. 2014. Influence of food availability on the behavior of a group of *Sapajus libidinosus* in National Park of Brasilia, DF, Brasil.

Teixeira DS. 2014. Strategies to understand the dynamics of sylvatic yellow fever in Brazil.

Verderane MP, Izar P. 2014. Early intimate interactions between mother and infant in wild bearded capuchin monkeys (*Sapajus libidinosus*).

Visalberghi E. 2014. Decision making and selectivity in stone tool-using wild bearded capuchins (*Sapajus libidinosus*).

Wheeler B, Tiddi B, Heistermann M. 2014. Physiological stress does not explain deceptive alarm calling in tufted capuchin monkeys (*Cebus apella nigritus*).
