

APPENDIX S1. Alpha rarefaction plots for 90% similar OTUs (A–C), 95% similar OTUs (D–F), and 97% similar OTUs (G–I), showing data sets that include all clustered OTUs (A, D, G), data sets that exclude singletons (B, E, H), and data sets that exclude OTUs with fewer than 10 constituent sequences (C, F, I). Line colors represent the sites from which samples were collected (red = El Eden; blue = La Higuera).
